

## LSV

## LSV

Built for fun the electric LSV is a real head turner.. Seating for four passengers a zippy leisure vehicle that will surprise you with 4kw motor and a top speed of approx 50kmph. Great handling means that you will really enjoy the off road experience while you are not disturbing the natural pleasures of the great outdoors with noise pollution and harmful emissions. Life is too short to miss out on the joys of driving this fun machine whenever you get the opportunity, *it just makes sense...*

## LSV

Motor:	4kw
Motor Cooling:	Wind Cooled
Battery:	12V/150Ah * 6
Charge Time:	8-10hrs
Controller:	GE
Chassis:	Steel
Body:	Fiber Glass
Dimensions:	2750*1818*1680
Front/Rear Tread:	1555/1555
Wheel Base:	2040mm
