

ZOOT SCOOTS

Zoot Scoots

With added protection against inclement weather, the Zoot scooter comes with or without baggage rack. Great run around for inner city living, Three wheels give stability, comfort and style. The baggage rack model boasts a 2200w motor with maximum speed of 50km/h whilst the standard motor is a 500w version with a top speed of approximately 25km/h. Both will travel around 50 km from a full battery charge, don't forget, no petrol required. The urban commuter that offers environmentally friendly transport, free from harmful emissions and noise pollution, *it just makes sense...*
