

A bus that seats up to 30 people.

Sun Bus

The SunBus carries 30 people (incl. driver) with a range of approx 120km from a single battery charge.

Available with full airconditioning and strong suspension it is designed to give the passenger a smooth, comfortable ride that will greatly enhance the commuting experience.

The SunBus generates no harmful emissions or noise pollution and runs on electricity alone.

The obvious benefits to the operator are the vastly reduced operating costs with no petrol, no oil and low maintenance costs.

It just makes sense.
